## ZHANG TINGJUN, 30

**Co-founder & Director, The Chain Reaction Project (TCRP)**

At the end of a five-day, 450km mountain bike race in 2009, a worn-out Tingjun saw a young boy carrying two sacks of coffee beans, and realised: "My adventure was his reality." Now TCRP benefits international non-profit projects by organising bike races for HIAM-Health, Timor Leste's Malnutrition Rehabilitation Centre for Children and putting together scaling expeditions up Mount Kilimanjaro in aid of the Amani Children's Home in Tanzania.
